About Us

MKT is an India based IT consulting and offshore software development company offering on-time, on-budget and cost effective e-business and other software solutions leveraging the web to globally deliver end-to-end solutions.

With our experiences over the years, we have evolved a highly effective form of work-style for the rapid analysis, design, development, implementation & maintenance of applications and customized solutions.

Taking maximum advantage of the time difference between India and other western countries, our processes ensure round the clock development activities. Effective real-time communication has been the key to the success of such a half way around the global-partnerships.

Reduce development **cost** and increase customer
satisfaction with mkt's business **solutions**.
